

## GOALS & OBJECTIVES

St. Monica's School endeavors to achieve through its total program the following goals & objectives:

1. To contribute to the spiritual, intellectual, personal, social, and physical development of each student in terms of his/her potential

\*By helping mold strong character traits through Catholic teachings, the practice of virtue, and recognition of every creature as belonging to God

\*By teaching each student to be well adjusted in the society they face and by giving them some of the basic rudiments involved in living a well-rounded life.

\*By providing sports and conditioning facilities to meet physical development needs

2. To reflect through our program a current knowledge of human growth and development and of student's needs at a given level

\*By facilitating ongoing professional development of the faculty and staff

\*By participating in the archdiocesan sponsored catholic educators conferences

\*By providing tuition assistance to further educational goals

3. To have our school committed to excellence on all levels

\*By stating clear expectations

\*By encouraging everyone to strive for high learning outcomes

4. To employ both traditional and technological methods to educate the student in the knowledge and skills necessary to lay the foundation for ongoing education

\*By providing supplemental tools to enhance their learning experiences

\*By providing a quality, user friendly library

\*By integrating technology across the curriculum using state of the art systems

5. To provide for the development of student potential to think creatively and accept responsibility

\*By assigning challenging group/individual student projects

\*By setting time lines for completion of projects

6. To establish a foundation for alert, active and articulate leadership

\*By cultivating the students' spiritual, intellectual, creative, and esthetic faculties

\*By assigning students tasks which provide leadership opportunities
